1790 Series Built-in Keyed Lock for Single Point Wrap Around Latch™ Lockers

Patent Pending

Uses same technology as automotive door lock systems

Wrap Around Latch™ Technology!

Enhanced security built-in keyed lock - the best lock for single point latch lockers!

FOR USE ON LOCKERS DESIGNED FOR 1790 SERIES LOCKS
 Please consult your locker manufacturer

EXCLUSIVE FEATURES

- Designed to tolerate locker misalignment making installation easier, and less likely to need adjustment over the life of the lock
- New latch wraps around a latch plate offering the best and most secure single point latch engagement
- Convenient, automatic slam-shut locking, combined with automatic and secure dead bolt locking

Built-in Keyed Lock Advantages

- Appropriate for lockers with multiple users who are assigned access for short time periods; i.e. at health clubs, gyms, and pools
- High security, 5-pin tumbler cylinder for superior pick resistance
- Concealed mounting and rugged metal case deter vandalism
- Two keys provided for each lock

Product Options

- Keyed alike, master keyed and group keyed options available to provide complete flexibility to match a facility's requirements

ADA Compliant Lock*
 Available as Model 1790ADA.
 See Page 18.

*as defined on page 16

DIMENSIONS

SPECIFICATIONS

Architectural Specifications: Locks shall be a built-in keyed lock with a rotational operating deadbolt latch that locks by wrapping around a stationary latch plate or post. Once locked, the latch shall not be moveable until the lock is properly opened. Locks shall be key-operated, with 5 pin tumbler cylinders with individual, group and master keying capabilities. Two (2) keys, per lock and mounting hardware shall be included with each lock.
