## Z-Line Shelving

### Easy Assembly

Two way keyhole slots and snap-in rivet design make installation a snap. No clips, sway braces, corner gussets or additional hardware needed.

### Structural Integrity

Positive rivet connection combines with 14 gauge angle post to make a rigid framework ideal for mezzanine or high density mobile shelving.

### Tall, Upright Posts

Upright posts are available in lengths up to 181½".

### Long Spans

Configure units up to 96" wide by 60" deep with Z-Line's channel beams.

### Added Reinforcement

Handle extra heavy loads with extra center support.

### Flexible Design

Shelves adjust in 1½" increments for optimum flexibility.

### Low Profile Shelf Support

Maximize shelf openings with thin but strong shelf supports.

### VDRS Shelf Support

Maximize shelf openings with thin but strong shelf supports.

### Strength Without Compromise

Standard 14 gauge double rivet beam has 2¾" profile and handles loads up to 2000 lbs. Or choose our optional 3¼" profile channel beam for even greater load capacity.

### Strong, Economical Shelves

Industrial grade particle board shelves hold up to the toughest applications — at an affordable price.

## Z-Line Shelving

*When it comes to value without compromising performance, you're talking about Z-Line shelving. Its fastening mechanism combined with a versatile array of components means it fits all your storage needs. The interlocking keyhole design not only makes installation fast and easy but eliminates the need for clips, gussets, sway braces or other hardware necessary with conventional shelving. Without these obstacles you have completely free access from all sides of the unit.*

*Z-Line's adaptability makes it ideal for any size storage requirement. Its interchangeable componentry means it can be configured for single width shelving applications or spans up to 96" wide. It's a multifaceted system that affordably solves all your storage needs.*

### Exceptional Strength

Double rivet design and keyhole slots form a rigid framework. Combine heavy gauge steel posts, shelf supports and angle beams and you have a shelving system that easily stands up to any industrial application.

### Easy Assembly

Assembly goes smoothly and quickly with Z-Line's snap-in rivet and keyhole design that eliminates the need for fasteners or braces.

### Unobstructed Accessibility

Because the Z-Line design eliminates structural bracing, items can be loaded and unloaded from either the side, front or back of the unit for maximum versatility.

### The Universal Storage Solution

Standardize your storage solutions throughout your organization by using Z-Line's interchangeable components for either your heavy-duty applications or where total weight requirements are not as demanding.

## Z-Line Shelving

### Low Profile Shelving Unit

Tennsco Low Profile Shelving Units are your solution when you need to maximize vertical storage space and need unobstructed access to stored items. The specially designed shelf supports with particle board are only 1 1/8" tall yet handle load capacities from 600-800 lbs depending upon the steel-gauge and shelf size you select. Widths available up to 48".

### Medium Profile Shelving Unit

Tennsco Medium Profile Shelving Units incorporate a special 2 1/4" high v-beam design offering heavy-duty support at an economical price. With the added load capacity you'll find hundreds of uses in your factory or warehouse. Shelf supports are available in either 16 or 14 gauge steel to handle shelf load capacities ranging from 600 to 1,000 lbs. depending upon the gauge and shelf size selected. Widths available up to 72".

## Z-Line Shelving

### Wide Profile Shelving Unit

The 2 $\frac{3}{4}$ " high steel beam of Tennsco's Wide Profile Shelving Unit supports applications where decking is used over longer spans. Whether your application involves wire decking or particle board, Wide Profile Shelving Units can handle your most demanding storage need. Weight capacities range from 1,250 lbs. to 2,500 lbs. depending upon shelf size. Widths available up to 96".

### Channel Beam Shelving Unit

Tennsco Channel Beam Shelving Units are your answer to industrial strength storage applications. The 3 $\frac{1}{4}$ " high steel channel beam offers maximum strength for shelf spans of 48" and longer. Load capacities range from 1,600 lbs. to 2,500 lbs., depending upon shelf size. Widths available up to 96".

## Z-Line Versatility

### Versatile Storage Options

Adjustable shelves and easy to assemble modular design allows you the flexibility to configure Z-Line shelving to meet your storage requirements.

### Sloping Shelves

Stores items at an angle for easier viewing and retrieval of products on display.

### Tire Rack

Conveniently stores tires for easy access and display. Vertical storage allows for maximization of available floor space. Available in a single or double entry unit.

### Archive & Box Storage

Z-Line is ideal for handling archived office materials like accounting records, computer printouts, etc. Use standard particleboard shelves, or choose angle box supports (shown above).

## Z-Line Versatility

### Handles Your Toughest Loads

Unlike other shelving offerings, Z-Line is designed to handle loads up to 2,500 lbs. per shelf. Plus it takes the tough handling found in warehouses or industrial storage areas.

### Enclosed Storage

Steel sides, backs and locking doors secure your stored items while keeping contaminants, dust, etc. out.

### Retail Storage & Display

Z-Line is one of the most flexible and affordable shelving systems available. Use your imagination in creating not only customized storage but also work stations, equipment stands, shipping stations, cutting tables, tire racks, hang racks and more.
