Easy to Install and Expand

Add another level by simply removing the top and stacking on another tier.

Optional Tier with Literature Sorters

Customize tiers to handle a variety of materials efficiently.

Heavy-Duty Shelves

Reinforced steel shelves hold materials without "racking".

Dividers

Rolled edges for added safety and embossed structural ribs add strength to the tier.

Optional Posting Shelf

Add a convenient workspace for file materials. This option can be added to 36" letter and legal tiers.

Base

Choice of bases keeps materials off the floor to avoid damage from mops or vacuums. Available in one inch or four inch heights.

Levelers

Compensate for uneven floors with adjustable levelers. (Available for 4" base only. 1" base shown.)

Add-A-Track Lateral Track System

Now make Add-A-Stack even more space efficient with Tennsco's Add-A-Track Lateral Track System. By eliminating the aisles typically required with a fixed filing installation, you can file 35% more in the same space.

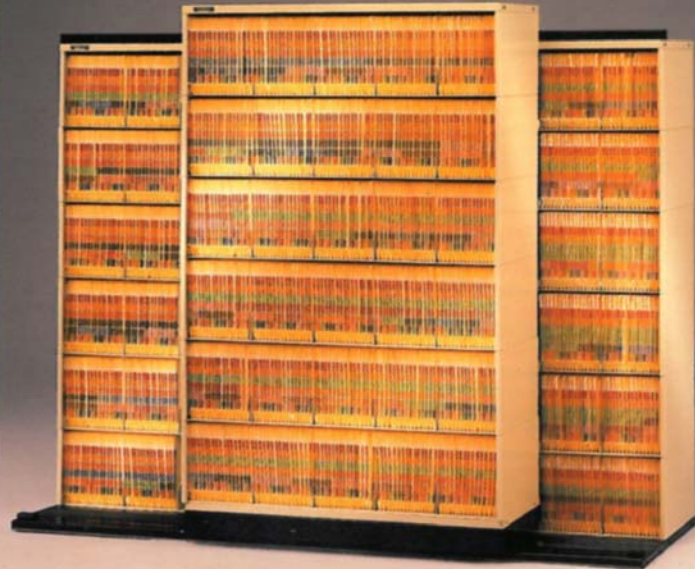

Add-A-Track saves valuable floor space by placing two rows of shelving front-to-back without the need for an aisle way.

Simply slide the front row of shelving side-to-side to access the back row. The system, which does not require permanent installation, is easily moved and configured to meet specific installation and space requirements.

To expand simply add tracks side-by-side.

The diagram to the right illustrates a typical fixed shelving installation with required space for aisle ways. Using Add-A-Track to eliminate aisle ways decreases the space needed by 35%.

Great Access in Less Space

You don't have to give up convenient access to your file materials to gain extra space. The Mobile Track System actually makes your files more accessible by eliminating the need to walk up and down aisles and around files.

Heavy-Duty Add-A-Track Carriage

The Add-A-Track System is designed to fit Add-A-Stack and certain other types of shelving. The system's components include a steel track and a heavy-duty carriage capable of holding 1,400 lbs. It features solid steel 3" diameter wheels for ease of movement and durability while rubber carriage bumpers provide pinch-free finger clearance. The track surface is covered the entire length with ribbed industrial grade vinyl, offering a safe, non-slip working surface. Integrated anti-tip system prevents shelving from tilting or falling.

Add-A-Track files 35% more in the same space.

Add-A-Stack Filing System

*You need more filing space.
You need more floor space.
You know you're going to
need even more of both later.
What you really need is
Add-A-Stack—the
modular filing system that
expands as easily as adding
another shelf.*

*Add-A-Stack's thin
profile reduces the height of
each tier, allowing you to
stack more tiers within
reaching height. Add-A-
Stack has been proven to
cost less per filing inch than
conventional filing
cabinets...and has
exceptional strength to carry
heavy filing loads safely.
With no time-consuming
drawers to open and close,
retrieval time is greatly
reduced as well!*

Add-A-Stack is available in all the most popular file sizes—letter, legal and x-ray. Optional posting shelves and literature sorters allow you to customize your filing needs.

Literature Sorters

Optional literature sorters are perfect for filing and compartmentalizing letter and legal documents.

Easy Leveling

Adjustable levelers are attached to frame-strengthening corner gussets which are welded into the corners of the 4" base.

Two Base Options

1" bases are ideally suited for mating with mobile or existing shelving, while 4" bases get your files up off the floor so mops and vacuums won't damage them.

Topped Off

To complete the stack and give it a finished appearance, an 18-gauge steel top is bolted to the top tier.

Tier-Strengthening Dividers

20-gauge steel dividers are welded directly between the frame and shelf to minimize deflection. A strengthening bead and embossed rib provide rigidity and eliminate sharp edges.

Add-A-Stack Shelving

Need more filing or floor space? *Add-A-Stack* is the modular filing system that expands as easily as adding another shelf. Thanks to its thin profile it reduces the height of each tier, allowing more within reaching height.

NOTE:
*Bases are available in either 1" height (without levelers) or 4" height (with levelers).
- All tops are 1" high.
- Tiers priced as each, packed 2 per box.

Stackable Tier

Base and Top Set. (1" Base, no levelers)

Base and Top Set. (4" Base with levelers)

Please Note

Standard Colors: Bone White, Light Grey, Sand

QuickShip Colors: Light Grey, Sand
