Heavy Duty Reinforced Shelving

Superior Strength

For the strongest shelving system available, Heavy Duty Reinforced Shelving offers load capacities up to 4,000 pounds per shelf and 13,000 pounds per section. The combination of 16-gauge steel shelves with a 14-gauge support framework makes it perfect for storing dies, motors, jigs, fixtures and other heavy materials. Choose from eight shelf sizes (ranging from 36" w x 18" d to 96" w x 36" d) and three post lengths to match your storage requirements. Braceless construction allows easy access from all sides, and the smooth steel surface makes placing and removing items much easier than on wood or wire shelves – simply slide items on and off.

Designed to Handle Your Toughest Loads

Unique combination of shelf supports with cross beam supports creates a super-reinforced unit and prevents deformation even under heavy loads.

Superior Strength

Our rivet attachments offer superior strength to shelving and with no need for nuts and bolts, it makes assembly a snap!

Tool & Die Rack

Heavy Duty Reinforced Shelving offers a reinforced shelf capacity of 2,000 lbs. Constructed of 16-gauge steel shelves and 14-gauge posts and supports, the unit's superior strength makes it perfect for storing dies, motors, jigs, fixtures and other heavy materials. Braceless construction allows easy access from all four sides, and the smooth steel surface makes placing and removing items much easier than on wood or wire shelves - simply slide items on and off. A simple design, uncommon for a unit built to withstand such loads, makes it quick and easy to assemble or rearrange.
