Workbench Accessories

Steel Top

Durable 12 gauge steel work surface reinforced with 14 gauge end channels. Smooth surface will not absorb oil or crack. Baked enamel finish resists rust. Load rating: 200 lbs. per sq. foot evenly distributed.

Plastic Laminate Top

High pressure white plastic laminate top and edges with particleboard core. Non-conductive smooth surface is ideal for electronics assembly. Load rating: 150 lbs. per sq. ft. evenly distributed.

Hard Maple Laminate Top

Solid laminated maple features butcher block construction to resist warp. Resandable surface is ideal for delicate machined parts and dies. Load rating: 150 lbs. per sq. ft. evenly distributed.

Compressed Wood Top

Tempered hardboard top and bottom surface laminated to compressed wood core banded on all sides with hard maple. Ideal for assembly work. Load rating: 150 lbs. per sq. ft. evenly distributed.

Workbench Riser

Adds extra storage to workbenches for increased efficiency and convenience. Can be double stacked. Perfect for storing tools or test equipment at a convenient height. Risers are 16 gauge steel.

Electronic Riser

Provides extra storage space above work bench plus convenient electrical service for power tools, test equipment, etc. Knockouts for four duplex receptacles and switch. Requires writing kit on page 7. May be double stacked.

Side and Back Rail Kit

3" height prevents parts and small objects from falling off sides and back. Rails bolt to any workbench top and can be used with other bench accessories. Rails are 16 gauge steel.

Workbench Accessories

Lower Shelf

Increases workbench storage space below work surface. Shelf is 16 gauge steel.

Lower Shelf (Modular)

Handy shelf/footrest attaches to modular units. Stores parts, tools, and other needed items. Shelf is 16 gauge steel.

Flared Legs

Flared legs are constructed of all welded 13 gauge steel with 14 gauge lower cross members. Available in three heights and three depths.

Adjustable Legs

Now you can adjust workbenches to meet changing work requirements without replacing them. Adjust from 27⁷/₈" to 35³/₈" high in 1¹/₂" increments.

Stackable Drawer

Unit may be stacked on top of workbench or mounted underneath. Nylon roller glides provide smooth drawer operation. Includes

padlock hasp, drawer divider, removable tray and knock-out for key lock. When mounting to electronic workbench, use Mounting Angles; when mounting to steel top, use Mounting Channels. Mount directly to all other tops.

Caster Kit

Add mobility to adjustable leg workbenches. Caster kit offers 3" wheel for easy mobility.

Drawer Divider

Add extra dividers to stackable drawers for customized storage solutions to accommodate various sized tools or materials.

Panel Legs

Box formed legs from 16 gauge steel. Use with steel, white plastic laminate, compressed wood, or hard maple tops.

Drawer Cam Lock

Provides convenient key lock to stackable drawers. Field installable.

Modular Storage Cabinet

Storage cabinet comes standard with key lock. Mounts to either basic or electronic

workbenches. Cabinet is constructed of heavy gauge steel, and is welded for strength. Base raises opening above floor level. Additional shelves are available.

Three-Drawer Pedestal

Drawer pedestal mounts to basic or electronic workbenches. Comes with one file drawer and two box drawers.

Modular Drawer Cabinet

Four drawer unit features removable drawers with recessed handles for easy opening.

Nylon rollers provide smooth, quiet operation. Each drawer comes with one adjustable divider with card holder. Keylock locks all four drawers simultaneously.

Electronic Outlet Panel for Panel Leg Units

Provides mounting plate for four duplex outlets on panel legs. Wiring Kit sold separately.

Electronic Outlet Panel for Modular Units

Provides mounting plate for four duplex outlets on Modular units. Wiring Kit sold separately.

Mounting Angles

Mounts stackable drawer unit on electronic workbench. Pre-drilled holes and slots provide ease of assembly.

Mounting Channels

Mounts either stackable drawer or modular cabinet to steel tops. Pre-drilled holes and slots for ease of assembly.

Wiring Kit

Comes complete with four duplex receptacles, on/off switch with pilot light, 8 foot grounded cord and plug, 15 amp, 115 volt service and circuit breaker. Prewired for quick installation. Use with electronic riser outlet panels (above), or electronic workbench
